Tax Rate Up For Coming Year In Nevada County

Placer Cuts, But Tahoe To Pay More During Coming Year

A record basic county tax rate of $2.20, 10 cents higher than for 1953-54, has been set by the Nevada County Board of Supervisors.

The new rate is based on a total assessed valuation which is approximately a million dollars higher than for last year.

Added to the $2.20 basic rate, of course, will be the usual district taxes for this area, all of which are at least equal and some higher than for last year.

Still further increases are due for the residents of the Meadow Park tract where a $1 tax on each $100 of assessed valuation will finance the recently created County Service Area. At first $1.40 was asked to provide the necessary funds for road maintenance and snow removal in that area, but Supervisor H. G. Loehr succeeded in having the amount cut to $1, which will raise approximately $360 for the required services.

The rate there—$5.90—is the highest in the county.

The supervisors spent many hours going over the proposed budget, cutting here and trimming there and finally managed to slash 8 cents off the proposed amount of $2.28 necessary to meet the original requests of the various departments.

The various local district taxes as approved by the board follow:

Truckee Fire Dist	.51
Truckee Sanitary	.36
Cemetery	.01
Truckee School Dist. Int. and Sink	.03
Hospital	.16
Unified School Dist.	1.55
Unified School Bond retirement	.28
Donner Sum. Utility	.50
Donner Trail School Int. and Sink	.14

This means that the rate within the Truckee Sanitary District will be $5.16 for the year 1954-55.

The rate in the fire district, excluding the sanitary district will be $4.90.

AUBURN — Although Placer County supervisors reduced the general county tax rate two cents on the $100 of assessed valuation when they set the figure of $1.60 for 1954-55, many portions of the county will give the tax collector more money than they did last year.

The Auditor Willam R. Stephens has applied taxes levied by other political subdivisions and his chart shows the highest tax—$6.29—will be paid in the Kings Beach area. There the North Tahoe Public Utility District, the Tahoe Forest Hospital, the Tahoe Truckee school district, junior college tuition tax, plus county library tax and bond and interest charges add $4.69 to the $1.60 basic rate.

Second place will go to the Tahoe City area with a tax of $6.22.

FIRST AID CLASS AT TAHOE ON SEPT. 7TH

Mrs. A. M. Henry announced that a first aid class will be open at the Tahoe Lake School in Tahoe City on Tuesday, September 7, at 8 p.m.

Mrs. Henry and Gordon Butterfield will instruct the classes.

Due to pre-school activities, vacatons and the holiday weekend only four people appeared for instruction at the meeting held on August 31.

Timmie Risden Feted At Birthday Party

An afteronon party on Monday marked the eleventh birthdate of Timmie, eldest son of Mr. and Mrs. Eugene Risden. Games proceded the serving of cake and ice cream, all being enjoyed by Quenton Kay, Bill Nottley, Bill Thornton, Mike Kaspian, Janice and Dale Eaton, Kathleen and Greg York, Frank, Ronnie, Sherie and Mike Borden, Philip Risden.

NEW PUPILS WILL REGISTER SEPT. 4

A special registration of new elementary pupils will be held Saturday, September 4 at the Truckee Elementary School from 10 to 12 a.m. This procedure will overcome the waiting for enrollment and placement of children the first day of school, September 7, Superintendent E. V. O'Rourke explained.

It is necessary that the parent present legal evidence of birth for the entering child. Evidence may be a birth certificate, hospital record of notarized affidavit. In addition to the birth record the parent should present the transfer from the previous school.

This special registration does not apply to those who registered children at the pre-school roundup in the spring.

Jennings To Retire As Superintendent Of Southern Pacific

"Mr. Railroad" is retiring.

Merle L. Jennings, superintendent of the Southern Pacific's Sacramento division, announced at the annual SP picnic at Roseville last Saturday that he will retire October 1st.

The announcement came as a highlight to the affair attended by more than 8500 fellow railroad workers and guests. Included among the latter were Governor and Mrs. Goodwin J. Knight.

Governor Knight, on behalf of Jennings' co-workers, presented the superintendent with a scroll.

Mrs. Knight, making her first visit to the railroad center, was presented with a bouquet of roses and responded graciously.

Although Jennings' retirement will not become effective for a month, he is enjoying a 30-day vacation at present.

Recently the genial superintendent said he is reserving his cottage on the Southern Pacific right-of-way in Truckee and plans to spend considerable time there enjoying his favorite sport of fishing on the Truckee river. Truckee will extend him and Mrs. Jenning a hearty welcome and will hope their visits here will be frequent and long.

All Is In Readiness For Opening Of Schools In District Tuesday

School vacation is ending.

Preparations for the resumption of work in all classes of the schools in the Tahoe Truckee Unified District next Tuesday morning are complete, E. V. O'Rrouke, district superintendent, announces.

The annual workshop which has been in progress for the past ten days will end Friday for the teachers and staff members who have been undergoing extensive preparations to acquaint themselves with their various duties in the local school system.

Buses will start their annual schedule Tuesday morning and class work will resume at 9 a.m.

All school plants throughout the district have undergone renovation, remodeling and redecoration during the slummer vacation period, with playgrounds, athletic fields and other facilities readied for the start of the 1954-55 school year.

Rebekah Official Is Honored At Meeting

Forty members and guests honored Dorothea Martin, president of the Rebekah assembly on August 25 with Alice Mayer, noble grand of Rebekah Lodge No. 2, presiding at the meeting.

Mrs. Martin was introduced by Pearl Heller, district deputy and also presented the distinguished visitor with a gift on behalf of the local lodge. Following the talk by Mrs. Martin, Mrs. Beverly Wilson was heard in a vocal solo and refreshments were served by Sylvia Beck and Lavina Rablin.

Preceding the affair a dinner was held in the Methodist Community Church.

Counties Will Decide Final Registration Date

SACRAMENTO (CNS) — State Attorney General Edmund G. Brown has ruled that the deadline for California voter registration this year will be September 9, even though that date, Admission Day, is a legal holiday.

Brown said it will be up to individual counties to decide whether registration offices will be kept open September 9. In counties choosing to close for the holiday, the last day for voter registration will be September 8.

The attorney general said the state constitution fixes the deadline on the 54th day before the November election without exception.

GUN CLUB MEETS

The Beacon Hill Gun Club will meet in Capitol Hall Tuesday, September 7 at 7:30 p. m. when discussion will be held regarding the continuation or abandonment of the organization. If it is to be continued, officers will be elected.

Noted Swimmer Preparing To Try Lake Tahoe Soon

Southern Student Will Get Assistance In Swim On Sunday

TAHOE CITY—Fahmy Attalah, 44, student at the University of Southern California, Sunday started training for his attempt to swim Lake Tahoe, lengthwise, a feat never yet accomplished. He is accompanied by his coach and trainer, Dudley Graham.

On September 5 Attlah plans to leave from Kings Beach at midnight and swim the 22-mile length of the lake, hoping to reach his destination, Stateline, between 6 and 8 p.m. on September 6.

Fred Main, commander of Tahoe Coast Guard Flotilla 35, will loan Attlah a training boat, and the Coast Guard cruiser will accompany him during his record-breaking attempt on September 5.

Attalah has an impressive record of swimming accomplishments, including seven attempts at swimming the English Channel, each of which was frustrated when within a very short distance of his goal. Once the engine in the accompanying motor boat failed when three miles from the French shore; again he was forced to give up when only two miles from shore when a young lady in the accompanying boat became violently seasick; another time when one-half mile from the English shore it was discovered there was no searchlight for his landing and he was baffled by strong currents and had to give up. Once again when 300 yards from the finish line he collapsed briefly from the fumes of motorboats racing out to meet and greet him. Another try found the water too rough; another try found him two miles from shore when a thunder storm arose and he had to leave the water for safety reasons.

Perhaps his most heart-breaking try was the one in August of 1950 when he swam the longest course of the English Channel, 80 miles, in 27 hours, 13 minutes, and when within 30 yards of the English shore the umpire touched him as he turned over on his back to rest in the water and he was automatically disqualified. In June of 1949 he swam 40 miles in the Mediterranean Sea in 22 hours.

Attalah has told friends that Lake Tahoe is not as cold as other water he has swam, and he has high hopes of making the 22-mile swim in good time, without too much strenuous effort.

Steve Kolos, Ruth Gordon Marriage Rites Held At Carson City August 22

Mr. and Mrs. Steve Kolos have returned here following their marriage which took place in the First Presbyterian Church at Carson City, Nev., on Sunday evening, August 22 with Rev. A. G. Shriver performing the ceremony.

The bride, the former Ruth Gordon, chose a gray suit with pink accesories for her ensemble and carried a bouquet of baby roses. She was attended by her sister, Miss Nine Richards of Carson City and Jordon Epperson of Sacramento acted as best man.

Organ music was played during the rites by Mrs. Shriver. The edifice was decorated with baskets of pastel gladioli.

A reception followed at the home of Mrs. Harold Berge, mother of Mrs. Kolos and was attended by a number of friends and relatives of the young couple.

Candleabra supporting white candles were on either side of the tiered cake, forming an attractive centerpiece on the bride's table.

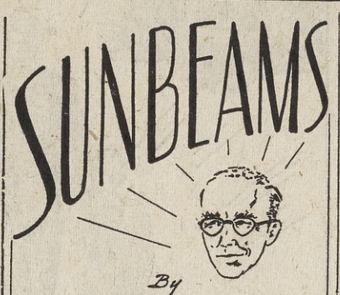

Mr. and Mrs. Ermin Hintz were local guests present.

$2,254.50 COLLECTED BY TRUCKEE COURT

August total for fines in the justice court of Justice of the Peace Fosten Wilson amounted to $2,254.50 with fines for traffic violations leading the amount with $1,832.

Civil fees accounted for $17 and penalty tax was $128. Criminal fines were $147.50 and $30 was collected for fish and game infractions.

SUNBEAMS

By WALTER M. BARRETT

Increasing the state's legal speed limit to 65 miles an hour, as suggested by Commissioner B. R. Caldwell of the California Highway Patrol, may have merit but to a casual observer it is not apparent. Currently, with a maximum allowable speed of 55 miles an hour, we find motorists going as fast as they can —55, 65, 75 or 85—usually, but not always, depending upon the road condition. Statistics have been presented, presumably by Caldwell himself, to show that speed is the greatest killer on the highway and it seems rather inconsistent that he would advocate a 65-mile limit when the death toll under the current law is startling. There are still a few drivers who observe the law and keep their speed down to 55, but by inaugurating a 65-mile limit, it may put these conscientious law observers on the same basis as the violator. It is also difficult to understand how the increased speed limit will give patrolmen a "better enforcement weapon" while they are still having difficulties in enforcing the 55-mile law. We will go along with 65 on freeways, but can hardly agree that the increase on all roads is going to eliminate wrecks and after all that is the object of the speed law, we are advised. It may be granted that by stepping up the speed limt, speeding arrests can be eliminated or cut to a minimum, but eliminating the cause of arests isn't going to diminish the results to life and property.

LAST RITES HELD AT AUBURN FOR EDITH FAY TURNER

Last rites were held for Mrs. Edith Fay Turner at Auburn on Wednesday. She expired at Roseville Sunday following a lengthy illness. She was well known throughout this district where she formerly owned the Riverside Hotel and had lived for many years before going to Roseville to benefit her health.

Her daughter, Mrs. Marjorie Zoebel and children of Tacoma, Wash., arrived to be at her bedside. Fred, her husband, is also a survivor. Interment in Sylvan cemetery followed the services.

Mr. and Mrs. Elden Tonini, Mrs. Annie Tonini, Mrs. Minnie Martini, Mr. and Mrs. C. B. White and Mr. and Mrs. Robert Bick were among the local friends who attended funeral services Wednesday.

Past Officers Will Be Feted At Lodge Meet

Past matrons and past patrons of Truckee Chapter No. 116, Order of Eastern Star, will be honored at the regular meeting of the lodge Tuesday, September 7. All the stations will be filled by past officers.

Mrs. Mae Critchley, chairman for the evening, has an interesting evening planned. Worthy Matron Dorothy King and Worthy Patron Dan Anderson will be honored guests of the evening.

Daughter Is Born To Floriston Couple Here

Mr. and Mrs. Lewis Heil of Floriston welcomed a daughter at Tahoe Forest Hospital on Monday, August 30.

Candance Lynn were chosen as her given names and her arrival weight was seven pounds four ounces. Dr. George Hahn was the attending physician.

In Hospital—

Mrs. David Campell of Sacramento and local summer resident is resting in Tahoe Forest Hospital following a recent illness.

Birth Date Observed—

Mrs. Claude Harrison observed her birth date on August 29.

Wedding Celebrated—

Mr. and Mrs. John Gracik celebrated their wedding date on August 24.

Buck Stew Plans Will Be Made At Sportmens Meet

Gun Range Now Complete; Sportsmen Urged To Ready Rifles

Plans for the annual buck stew —one of the highlights in the activities of the Truckee Outdoor Sportsmen—will be made at a meeting Tuesday, September 7 at 7:30 p.m. at Capitol Hall.

Charles Osburn, president of the group, said that the date for the event will be set, committees appointed and wheels set rolling for presenting a bigger and better program this year.

Annually scores of prizes are give away at the program and hundreds of members and guests are filled with the savory stew, prepared by Johnny and Julia Ciardella, the chefs.

RIFLE RANGE READY

The Sportsmen have completed installation of a gun range just opposite the Stockton Box Company mill across the Truckee river and extend an invitation to anyone wishing to sight or test their guns to take advantage of the facilities.

The range is equipped with a shelter, platform, rests and other required features. There are currently 50, 100 and 200-yard targets, with preparations under way for a 150-yard range and a 25-yard target for small rifles or sidearms.

Targets are available, Osburn said, although those desiring may provide their own.

Hunters are urged to get their rifles in shape before the opening of the hunting sason later this month.

December Blamed For Low Precipitation In Report From Observers

A comparatively dry December was blamed for the sub-normal precipation figure for the year ended August 31, the U. S. Forest Service reports.

The forest service precipitation figures are kept on an annual basis from September 1 to August 31. Dispatcher Henry Toccalini said.

The records show that during the past year the Truckee area had 24 inches of precipitation as compared to a yearly normal of 27.38. All the months of the year were normal with the exception of December, which was 3.37 inches below the average.

DR. KASE ORDERED FOR SEA SERVICE

Lieutenant and Mrs. Sidney Kase returned to Truckee Saturday from the bay district prior to his departure again on Monday to report for sea duty.

Mrs. Kase and children will continue to make their home here. Shortly after the family's arrival home, Cheryl Kase had the misfortune to break her left arm in a fall from a swing.

BOY FALLS OFF AUTO FENDER, IS INJURED

David Brownell, 12 year old son of Mr. and Mrs. William Brownell of Woodland apparently had a narrow escape on August 27 when he fell from a truck fender where he was sitting and the right rear wheel of the vehicle passed over his stomach.

David was rushed from the Cedars near Soda Springs to Tahoe Forest Hospital for treatment and later continued to his home.

ROBERT WRAY BACK AFTER LONG ILLNESS

HOMEWOOD—Robert Wray, well known tree surgeon and chain saw dealer, has returned home after three months in a Reno hospital where he underwent treatment for serious burns over his entire body. While still not active, Wray is able to conduct his business and is rapidly improving in health.

He expressed his thanks to the scores of friends and neighbors who provided blood for transfusions which were credited with saving his life.

Ransome Improves Local Plant; New Manager Named

Extensive improvements in their plant facilities here are being started by the Ransome Company one mile west of Truckee on Highway 40. The alterations and improvements will exceed $20,000, E. C. McEneany, general manager of the liquified petroleum division of the company, announced.

The company is bringing one of its own mix plants to Truckee to do the work.

The entire plant will be repiped and a concrete loading dock installed. The yard will be graded and surfaced with plant-mix extending to the highway where a curb and approaches are slated for installation.

McEneany said this project marks the first step in improvements planned at the Truckee plant which was recently purchased from the Mountain-Rotary Fuel Company by the Emeryville firm.

Walker Apperson of Sacramento, one of the officials of the firm, said the service department has been augmented here by "Red" Hubbard of Emeryville, who with his wife and two children is currently living at Donner Lake. Hubbard has been with the concern for many years and is classified as one of their best service men. His arrival brings to ten the number of local company employes, Appersons said.

H. O. McDaniel, a Ransome manager for 20 years, has arrived from Redding to take over the duties formerly handled by Joseph Silveria who has gone to the Reno office where he will be employed. McDaniel will bring his family here when he can find suitable housing facilities.

STATE CHAIRMAN OF CLUBS WILL BE TRUCKEE SPEAKER

Early Days in California is the title of the topic chosen by Mrs. Guy Rogers of Durham, state chairman for the California Federation of Women's Clubs who will appear before the members of the Wyethia Club on Friday, September 10. Mrs. Rogers has been here previously and the coming talk is anticipated. Mrs. Fred Pedley will preside at the meeting.

California night will begin with a dinner to be held at 7 p.m. in the edifice, to be followed by Mrs. Rogers' colorful pictures and story of this state's history.

Reservations may be made at Cabona's store or Heller's Variety The September 3 meeting of the local club was postponed to the later date due to the weekend holiday.

Registrations For Nursery School Must Be Made Now

Registrations for the Parent-Nursery school are now being taken. Those who have forms are urged to complete them and turn them in to Mrs. Jack Neugebauer at the Donner Theater today or tomorrow. Those who have not registered may do so by procuring forms from the high school or from Mrs. Neugebauer. The nursery school will meet three afternoons a week at the elementary school and parents will participate.

LIONS SHOW HUGE SUCCESS LOCALLY

From both an entertainment and financial standpoint, the show, You Can't Beat Fun, presented at Capitol Hall Friday and Saturday by the Truckee Lions Club was a resounding success. The cast performed like veterans and the audience was more than pleased.

The welfare fund of the club was swelled materially from the proceeds from the show which played to capacity houses both nights.

Minor Injuries

William Roy Bullock of Los Angeles had only minor injuries after has car crashed into an embankment half way up Donner grade Friday evining at 6:30 o'clock. A passenger, Silas Prine, also of Los Angeles was also treated at the hospital here for minor injuries.

Utility Withdraws Objection To Lake Water Application

Manager Objects To Move By Board To Allow Firm's Request

Over vigorous protests by Manager C. Edmunds, the board of directors of the Truckee Public Utility District Tuesday voted to withdraw objection to the issuance of a certificate by the state utilities commission to the Donner Lake Utilities Company for installing and operating a water system at the east end of Donner Lake.

The action of the board followed the presentation of a petition signed by 140 property owners at Donner Lake urging that the protest be withdrawn.

Previously the district had entered strong protests to the issuance of a certificate on the basis that the area to be served is within the boundaries of the Truckee Public Utility District and that the latter should provide the service as required. Seventeen Donner Lake residents had petitioned the district to provide such service.

NOT FINANCIALLY DESIRABLE

The three directors, E. L. Loynd, H. T. Langille and C. R. Heller took the stand that the cost of installing and maintaining the water system would not be financially advisable either for the district or the residents to be served. Edmunds charged the board with a lack of foresight and urged them to consider the future of the area as it grows through the aid of the utility district.

Appearing before the board in behalf of the water company were Lee Nesbitt, representing the Armstrong Realty Company and J. H. (Bud) Bradshaw, representing the Donner Lake Development Company, parent of the proposed water company.

Both stressed the desire for immediate action in furnishing water so that sale of lots in the area can be continued. Without water, Nesbitt said, the state real estate board will not permit sales.

48 HOMES

Nesbitt said that currently there are 48 homes and nine units in the area to be served by the new water company. Costs were emphasized and the importance of immediate action enlarged upon.

While the action of the directors does not necessarily mean that the utilities commission will grant the certificate, it does remove the most important block in the path desired by the development company.

PLEASES MAJORITY

"It is unfortunate that we do not at this time have sufficient finances to step in and do the required work," Loynd, president of the board declared. "From a business staindpoint it does not seem advisable and the petition would indicate to me that we are doing what the majority of interested people demand."

"The action of the board was definitely a backward step in the progress of the district," Edmunds declared. "We are bowing to a selfish corporation which does not now and never had any interest in our area except to profit from our natural resources. I certainly do not agree with the board's action in the matter."

Woman Injured As Car Plunges Into River

Mrs. Walter Franklin Cottrell of Albany was treated at the Tahoe Forest Hospital for major injuries after a car driven by her husband went out of control while rounding a turn seven miles east of Truckee Friday night shortly after 10 o'clock.

The car missed the bridge at Hirschdale entirely and plunged into the Truckee river.

Mrs. Cottrell was taken to the hospital by the Truckee ambulance. Her husband was not seriously hurt. State Patrolman Roy Stallard made the investigation.

High School PTA To Hold Meet September 9

Starting the school year with a parents-faculty mixer, the High School Parent-Teachers association will hold its first meeting on Thursday, September 9th at 7 p. m. at the high school.

A pot luck dinner will be a feature of the meeting with Mrs. Gene Little of Kings Beach and Mrs. Frank Giovannoni of Truckee as co-chairmen of the arrangements.

The meeting is designed to give parents an opportunity of meeting several new faculty members as well as renewing friendships with the returning teachers.

FIRE CONTROLLED

The Truckee Volunteer Fire Department and the U. S. Forest Service suppression crew responded to a call from the Stockton Box Company mill just west of here on Friday and quickly extinguished a small but threatening blaze.

POST-KOREA VETS GET EXTENSION ON SCHOOL LAW

Post-Korea veterans now have three years from the date of their discharge to start Korea GI Bill Training under a new law signed before last Friday, August 20, 1954;

Particularly benefitted are the majority of veterans discharged before August 20, 1952. Under the old law, they had to start training before last Friday, August 20, 1054; but, since most fall school terms begin after that date, those unable to get in training before the deadline would have lost their entitlement.

The new law, which re-established their entitlement for another year from separation, permits those with extended deadlines to enroll for the fall term.

For veterans discharged after August 20, 1952, the new law allows them to start training within three years of their separation date. Under the old law, they had only two years.

But veterans separated before August 20, 1951, still will not be able to make fall terms. Neither will veterans separated shortly after that date, whose three-year deadlines end before the 1954 school year begins.

POLIO CASE LOAD DROPS SLIGHTLY, PEAK IS DUE SOON

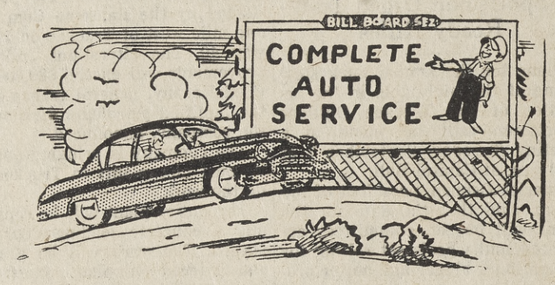

SACRAMENTO (CNS)— The slight drop in the number of polio cases in California during the second week of August did not indicate a turning point in this year's record outbreak of the disease.

Dr. Malcolm H. Merrill, state director of public health, reported to Governor Goodwin J. Knight that the peak in the number of cases probably will come in mid-September. The number of reported cases dropped from 217 for the week ending August 7 to 195 for the week ending August 14.

Merrill said the number of recorded cases since the start of the polio season April 1 has mounted to 1523. The number of cases reported during the same period of the epidemic year 1948 was 1461.

But, the director noted, the number of paralytic cases so far this year totaled 887, compared with 1034 for the same period in 1948.

OUR DEMOCRACY——by Mat

AS DAY IS FROM NIGHT—

A LARGE PART OF THE TWENTIETH CENTURY HAS SEEN TOTALITARIAN SYSTEMS TRIED IN VARIOUS PARTS OF THE WORLD. DARKNESS HAS DESCENDED UPON THOSE PEOPLES, AND CLOSED OFF THE BORDERS OF SEVERAL FORMERLY FREE AND INDEPENDENT NATIONS.

IN OUR DEMOCRACY, WE STRIVE EVER TO BROADEN THE SPIRITUAL, POLITICAL AND ECONOMIC BASE ON WHICH WE STAND, AND TO BRIGHTEN THE RAYS OF ENLIGHTENMENT INSTEAD OF DARKENING THE MINDS OF MEN.
AS DE WITT CLINTON SAID IN 1826: "A GENERAL DIFFUSION OF KNOWLEDGE IS THE PRECURSOR AND PROTECTOR OF REPUBLICAN INSTITUTIONS; AND IN IT WE MUST CONFIDE AS THE CONSERVATIVE POWER THAT WILL WATCH OVER OUR LIBERTIES."

Unemployment Benefit Reforms Save $500,000

Changes in benefit payment methods which will abolish practices that cost up to $500,000 and that have been futile for claimants and unnecessarily burdensome for employers were announced by William A. Burkett, director of the California Department of Employment. The new procedures become effective next week.

Declaring that the action is another step in bringing about the reforms in the department's administration he promised when he took office last November, Burkett said the new method corrects abuses that have existed in connection with the requirement that claimants must seek work on their own behalf to remain eligible for unemployment insurance.

"The former practice required claimants to list all places where they sought work. This system was both costly and a constant source of irritation to employers as well as claimants, and it did not reduce fraudulent and improper claims.

"By eliminating the requirement that claimants list all places where they looked for work each week we will cut our interviewing time by about one-third. We have been spending more for these interviews than our budget permits, and almost all the excess time has been used in unprofitable questioning of the claimants about their search for work."

Burkett explained that, under the new practice, the claimant's general plan for seeking a new job will be developed at the time he first applies for benefits. Each claimant will be specifically informed of what is expected of him, rather than merely being told to go out and look for a job.

"In place of having him list where he went in search of work we will now require the claimant simply to answer 'yes' or 'no' to the written question, 'Did you look for work last week.'

"If the claimant reports he did not look for a job he will be questioned further to determine his right to be paid benefits," the director said. "In case the claimant remains unemployed for five weeks, a longer interview will be held to reconsider his eligibility in the light of current circumstances. If necessary his instruction in regard to looking work will be revised."

Burkett pointed out that the practice which he is abolishing began more than a year ago under the previous administration. The installation became known as "operation rainbow" because claimants were required to fill out a series of cards, each of a different color

STATE DEPARTMENT HEADS CAN COLLECT

SACRAMENTO (CNS)— Heads of state departments who serve on the Governor's council and who do not headquarter nor live in Sacramento are entitled to travel expenses when they meet with the Governor each month.

California Attorney General Edmund G. Brown ruled that such council members may claim expenses because their headquarters have been established in other cities by the State Board of Control.

The state director of industrial relations and the state public health director, both members of the council, have headquarters in cities other than Sacramento.

Four other members of the council, all chief of state divisions, also headquarter in other cities. But a deputy attorney general said the opinion did not rule on their eligibility for council traveling expenses.

The state controller's office said Industrial Relations Director Paul Scharrenberg of San Francisco is the only member who has submitted a claim for council expenses.

The first steamboat—a craneboat—went through the Panama Canal on January 7, 1914.

SWANEE'S Lake Tahoe Letter

Tahoe City, Aug. 29

Dear Tahoeites:

All is hustle and bustle in making ready for the big event of the year at Tahoe, the Sky High Gold Cup second annual regatta. Get your tickets early for the reserved seats and see the big show at the start and finish line. Wonder how many of you readers realize the time, energy and do-re-me these civic minded leaders of our small communities give in putting on an affair of this size and magnitude? beauty sleep is lost in the process. It's a heap of work and a lot of Co cooperate all you can. Every business profits by anything that brings the public in droves to our fair shores and join your Chamber of Commerce. The regatta program, and some sidelights, will be found elsewhere in the Sun this week for your convenience and enlightenment.

Some more prominent personages have been guests at Tahoe recently, the latest we've heard about including Mr. and Mrs. Adolph Menjou who vacationed at Tahoe Tavern and Lawrence Tibbett, the singer, who was the houseguest of Mr. and Mrs. Albert Miller at their Tahoe Park home. The Millers gave a cocktail party for Mr. Tibbett on Sunday last, about thirty attending. Mrs. Molly Ross has returned to her Los Angeles home after a two weeks vacation at the home of her son-in-law and daughter, Mr. and Mrs. Bud Scott of Miramar Heights. Miss Kitty Reid of Los Angeles, who spent several months at the Scott home this summer, returned home with her grandmother. Mr. and Mrs. James D. Baker and children, Yvonne and James Richard, spent the weekend at the home of her father, Richard Leuschner in Merced. Mr. and Mrs. Malcolm Fox have moved into their newly completed two-bedroom home in Squaw Valley. Lee Van Wetter was the builder.

Mrs. Marie Henry of Tahoe City Garage is again asking for assistance in conducting the air-watch station at the garage throughout the day. At the present time, and for many months past, the Henry family has performed this civic duty alone, and it does seem that some of her neighbors could lend a hand for an hour or two a day without feeling the strain. The Henry clan includes Mr. and Mrs. Joe Henry, Mr. and Mrs. Al Henry Jr., and children, Karen and Gary, and Mr. and Mrs. Malcom Fox, before they moved, and daughter, Mary Taber. Even an hour a day would be a great help. So won't somebody please make an offer? During the past few months Marvin Lock and Allan Maxwell, employed at the service station, have lent a hand in spotting the planes which numbered 38 on Saturday. They have returned to their schools below and are no longer available. Instructions are very simple and after 36 hours of service the watcher is awarded the wings of the aircorps as a gratuity. Call Mrs. Henry for further information.

Guests at the Bert Scott home in Miramar Heights this weekend are Mrs. Edy Beck and Mrs. Jessie Adams, both of Piedmont. The Scotts entertained a party of friends on their cruiser Saturday on a trip to Rubicon. Guests included Dr. and Mrs. Henry Searles, and Dr. Salvadore Lucia (both doctors from University of California Hospital in San Francisco). Mr. and Mrs. George Clek of Sacamento, and their son, the Mesdames Beck and Adams of Piedmont, Clarence Hoyt, and Mr. and Mrs. Alberto De Vilanova of San Salvador.

Weather continues good, although a bit cloudy at times, and cooler. Crowds of motorists are still with us, but traffic appears to be orderly and without mishap. Resorts are reported booked to capacity for the coming holiday weekend the last of the summer. Here's hoping good weather prevails for the coming Gold Cup Regatta on the 11th and 12th of September. Come and bring the family.

Ring-off for the week with a cheery adios to one and all, as ever, Swanee.

MANY ACTIVITIES AT TAHOE CHURCH

TAHOE CITY — Bishop Noel Porter of the Outdoor Chapel of the Pines near Tahoe Tavern, reports good attendance continues at Sunday services.

On Sunday, August 22, Bishop Porter confirmed Judith and Kenneth Vaughn, Douglas and Wesley Ball and Mrs. Violet Pomin, all of Tahoe City, and Mary Jo Miller of Sacramento. Also Mrs. Lenora Bartel and Mrs. Rebecca Shontz of Tahoe City, and Charles William Fink of Squaw Valley. On August 22 Bishop Porter baptized the four children of Mr. and Mrs. Charles de Bretteville, Leslie, Peter, Frances and Charles Locke, all grandchildren of the W. W. Meins of the Peninsula and Tahoe Park.

On Tuesday, August 24 Bishop Porter baptized the three daughters of the Alexander Cushings of Squaw Valley. They are Justine Bayard, Lily Delaney and Alexandra Cochrane Cushing. On Sunday August 29 baptisms included those of Tracy Hayes Cotchett, daughter of Mr. and Mrs. Richard Shilling Coichett of Oakland, and Paul Ernst Corona, small son of Tahoe City Postmaster and Mrs. Oliver Corona of Tahoe Park.

At 4:30 p.m. on Saturday, August 28, Bishop Porter married at the Outdoor Chapel Mary Virginia Wetzel of San Mateo to John Philip Collier of Berkeley. It was a double ring ceremony performed before a group of relatives and friends. Peter Gibson, guest organist at the chapel, from College of Pacific at Stockton, played appropriate organ music during the rite.

NORTH TAHOE

By JUDGE HARRY CHARRISON

Here we are almost Labor Day again. What do you mean—again? It's that every day for me, says my wife. We feel so happy for the boys and girls, as they have been waiting all summer for good old school to start again, but for some reason the summer has been awfully short, don't you think?

Madeline Hord, a very good friend of ours, has left for her home, just the other side of Johannesberg on the desert. She was quite loth to go as she had spent quite a few weeks with the Miedemas, and even assisted in the rush hours at the court in Tahoe City. We hope to see her back soon.

On Saturday of this week Joellyn Ashton celebrates her seventeenth birthday and by all accounts she is going to celebrate in a style that she will remember. Jo says, "well I am only 17 once so let's make the best of it." She has been in Loynd's Drug Store all summer showing off that great big smile. Happy birthday, Joellyn.

Two big affairs are in the offing for the south end of the lake, first the Mile High Gold Cup boat races will be held on September 11 and 12. Fred Main, president of the Tahoe-Sierra Chamber of Commerce tells me it is expected that the attendance will be even greater than last year. These sports events are a wonderful advertisement for the whole lake, as boats from all over the world compete. Let's get behind Fred in this venture.

It would seem as we near the end of the season, the Brockway golf course is taking on new life, this has been one of the biggest weekends yet.

Our commuter, Wyman Williams, flew up from Pasadena again this past week to spend a few days before Labor Day. Wyman is kept busy building new homes in Pasadena and Altadena.

There is a warning out against drivers taking chances in night driving. It is said that the cool nights have had a tenancy to drive deer down to the lower spots. So don't taken chances, just care.

Good for Jerry Little of Kings Beach, he has found himself a couple of partners and has gone into the gas and oil business, known as the Tahoe-Truckee Fuel Co.

The Communtiy Church (Wee Kirk of the Pines) of Kings Beach, is having wonderful congregations this summer. The open air chapel is proving very popular especially with the visitors and we are hoping the weather will continue to stay nice and warm. Of course we have the usual September hot spell to come yet, so leave your firs in the mothballs for a while.

A sweet little girl by the name of Susie Watkins is visiting the Andy Sorensens of Tahoe Vista. She is from Newcastle, and drops a line to Ray once in a while, just to cheer him up, I guess. And by the way, Ray is doing swell and is just itching to get his car down there in Pensocola, Fla.

Mr. and Mrs. George File of Tahoe Vista have already left for Sacramento. We were sorry to see them go as they were real community minded citizens, and Mrs. File being a teacher in a Sacramento school was very much interested in the young folk while here. George is starting an office in the insurance business at Elk Grove. I am sure all of his friends wish him well in his new venture. Hurry back, folks.

Don and Mrs. Norton from Iowa, are up here with the Ashtons. Mrs. Norton is the daughter of Marguerite Ashton of Kings Beach, and are expected to stay here for quite a stay, maybe a couple of weeks.

Sophie Levra, the high school mogul of the square dancers, tells me they have started the square dancing which will continue thru the coming months. Having had a swell time last Saturday night, when a big birthday cake was cut to celebrate the birthday of Fred Reynolds. Charles Rich was also a guest at the affair, also there were guests from Long Beach, Whittier and Reno. Oh, yes, and the Levras have as their houseguests Howard Hall of San Lorenzo, and Stanley Rawley.

What a surprise to hear that two well known locals, announced their engagement at the home of the Sorensens Tahoe Vista. This delightful affair was followed by dinner at Cal-Vada Lodge, Crawford Bridges, attorney from Grass Valley, doing the entertaining, and the participants were Jay Hill and Marion Kneebone. Arrangements are being made to hold the ceremony in the Methodist Church, Reno, and October 3 is the tentative date for the happy event. More later.

Henry and Mrs. Johnson, also Hugh Johnson, are up for a couple of weeks in their home on the golf course. Identical twins? I'll say they are. Can't tell them apart.

See in another article the change in handling non-support of children by fathers. This will improve the law and put the bee on those fathers who wilfully try to dodge their responsibilty regarding the welfare of their own offspring. Do you know any meaner human being? I don't.

Now, a word to the wise, if you have not registered, you will not be able to vote. Be on the safe side. Do it now. September 9 is the last day.

MAN FINED $200 ON FIRE CHARGE

TAHOE CITY—Roy T. Wolters, manager at the Henry J. Kaiser estate at Homewood, was cited by Clarence S. Beavers, U. S. Forest Service, for dumping burning ashes on other inflammable debris last weekend.

Wolters pleaded guilty to the charge before Judge Harry Charrison in the Tahoe District Court and was fined $200.

CARD OF THANKS

Words cannot express our thanks and appreciation for the many prayers, blood donations and many other kindnesses shown me and my family during my recent illness.

Robert J. Wray

NOTICE OF INTENTION TO ENGAGE IN THE SALE OF ALCOHOLIC BEVERAGES

August 31, 1954

To Whom It May Concern:

Subject to issuance of the license applied for, and commencing not less than 15 days after the date posted, notice is hereby given that the undersigned proposes to sell alcoholic beverages at these premises, described as follows:

Sportsman's Club, N|S Hwy. 40—1½ Mi. W. of Truckee, Nevada County, California.

Pursuant to such intention, the undersigned is applying to the State Board of Equalization for issuance on original application of an alcoholic beverage license for these premises as follows:

On-Sale General (Seasonal-Quarterly)

Anyone desiring to protest the issuance of such license may file a verified protest with the State Board of Equalization at Sacramento, California, stating grounds for denial as provided by law. The premises are not now licensed for the sale of alcoholic beverages.

KENNETH FOSTER JERRY LITTLE

STATE BOARD BOGS DOWN OVER LIQUOR, LEAKE TELLS CLUB

UKIAH—Board of Equalization members cannot deal with tax administration because they are bogged down in a swamp of guile, pressure, unsavory influences and political chicanery, Paul Leake, member of the board from the Third District, charged here in a talk today to Rotarians.

"It is the voter's tax money which is affected, and only the voting citizen can set the record straight," he said.

Leake called for vigorous public support of the proposed constitutional amendment providing for a liquor department with a director and a three-man appeals board, all to be appointed by the governor, and subject to confirmation by the state legislature. Fate of the bill will be determined by California voters in the November election.

Leake reminded his audience of the heavy tax burden now borne by citizens throughout the nation.

"Each of us works four months out of the year for government," he declared. "It is true that at every level, the claim of the tax collector upon us is a heavy one. It is equally true that when taxes are administered with wisdom and justice, they return to us bountifully, improving our schools, brightening our children's future, and contributing to the agreeable fact that today's Americans enjoy the highest standard of living known in the history of our civilization.

"At the same time," Leake asserted, "it cannot be disputed that tax collecting agencies should give the taxpayer just and honest treatment."

Leake told his audience it was their duty to correct the present situation by voting affirmatively for the proposed new liquor authority in November.

BIG GERMAN BROWN IS TAKEN ALIVE AT SAGEHEN PROJECT

According to word received in the supervisor's office of the Tahoe National Forest, strange things are happening at the University of California Fish Research Project located at Sagehen Creek on the Truckee District. This is a long-term fish study project which seems to have borne fruit before its scheduled time.

No one suspected that "Oscar" existed along Sagehen Creek. The story goes like this:

Recently in carrying out their studies, they pumped out a beaver pond and among those tallied was a German brown trout, which was dubbed :"Oscar." He measured 24 inches in length and weighed 7 pounds. He struggled with such strength when they attempted to capture him that it took three men to move him without damage to the live transportation box. "Oscar" was moved to a fish trap near the headquarters and, according to the report, is pining away because he has been cut off from his diet of little trout. It is difficult for the members of the supervisor's office to believe this, but that is what the report says.

Also up on this project is another hardy soul, a student, who is out there studying beaver. He has captured members of a colony and marked each one with an identifying color, then on moonlight nights, and it has been awfully chilly at Truckee lately, he spends his time up in a lodgepole pine with binoculars spying on each member of the colony.

Although there is no doubt much to be learned by such spying, it is wondered if the student might have received some information that papa beaver has been stepping out.

WARM WEATHER AT LAKE TAHOE

TAHOE CITY—Typically warm, sunny weather prevails at Tahoe with the temperature going into the 70's and not dropping below 38 during the past week.

With five gates open, the lake level stood at 6227.58 feet Monday, Art Frodenberg, cooperative observ- reported.

The largest island of Australia' Great Barrier Reef in Hinchinbrook, nearly 30 miles long with peaks rising to 300 feet elevation.

GOLF TOURNEY HELD AT LAKE

TAHOE CITY—The fifth annual Tahoe City Golf Tournament, staged by Owner Carl Bechdolt, Jr., closed on Sunday following two days of competition. A large crowd was on hand to follow the players, and weather was perfect. Bechdolt and golf pro Angie Bonino of the local links were in charge of the tournament, with Senator Ken Johnson of Carson City doing the presentation honors in the new clubhouse at the close of Sunday's play.

Bill Helfrich, 16, won boy's junior top honors; Billie Judge, Orinda, 14, came next and Darryl Mour, San Mateo, came third.

Sharon Johnson, daughter of Senator Johnson, took top gross score; Sharon Bechdolt was second and Christine Bechdolt came third.

Boys' 12 to 18 net score went to Jim Dickson of Watsonville; Pat De La Forest, Napa, second and Al Clark.

Net girls' score went to Barbara Fortino of Watsonville; Diane Hunkins, Marysville, second and Katie Corbin, third.

Highlight of the tournament was the nine-hole stunt of two-year-old Calvin Bechdolt, son of the host, and his cousin, five-year-old Jimmie Bechdolt, son of the William Bechdolts of Tahoe City. The youngsters' scores may have been a little heavy, Cal getting a 175 gross and Jimmie 160, but they played and behaved like veterans on the green. Both received trophies.

For 11-year-olders and under Parkie Bechdolt, 9, took top honors. Steve Elliott, 8, of Monterey and Pete Hunkins, Marysville, 7, tied for second place.

Ladies' gross score went to Jane Metrovich of Reno. Mrs. Lewis of Los Angeles, second and Barbara Lyons, third.

Ladies' net score went to Mrs. Patricia Fox of Squaw Valley. Mrs. Shapiro, San Francisco, second and Mrs. Friend, San Francisco, third.

Men's gross score was taken by Everett Olson, present Reno city champ, while Joe White of Pittsburg and Mike Ferenz of Palm Springs tied for second.

Men's net score went to Bill Connors, of Tahoe City, second; Glen Lee, Truckee and Frank Gaiennie, Truckee, third.

The annual pitch for the Tahoe City Volunteer Fire Department fund was made by the group, with over $100 being added to the department's treasury by the hole-in-one contest which went to Al Hunkins, his ball rolling within 14 inches of the cup; Mrs. Meyerfeld of San Francisco, topped the women, her ball rolling within 25 inches of the cup.

There are more telephones in the United States today than there were in the entire world ten years ago.

Thirty-six California counties participate in the state's program for the control of predatory animals.

SHE'S TAKING NO CHANCES!
I'm a bargain hunter — but I watch my step when I buy—
DRY CLEANING

SHE'S perfectly right! A so-called "bargain" "DRY CLEANING" is is almost never a bargain . . . She has a sense of values in all things. She knows the importance of good clothes. She knows that "bargain cleaning" is false economy and that good cleaning is a sound investment. She knows about US. And we know about her— for she typifies our customers.

JUDGES CAN SAVE TAXPAYERS MONEY, CHARRISON SAYS

"The judges of the county judicial districts can save the taxpayers money by using information supplied us by the County Welfare Department," Judge Harry Charrison of Tahoe announced today.

A meeting of the Placer County Judicial District Judges, called by Judge E. T. Erskine of Auburn, was held with District Attorney Broyer, Assistant District Attorney Lee Propp, Chief Probation Officer James Nelson and Alfred J. Hailparn, director of the welfare deparment, to work out the details.

"The welfare department will let us know the amount of the aid to needy children grant they are issuing. These are tax-funds that are supporting a man's children," Judge Charrison explained. "We can then order the father to contribute towards his children's support through the probation office. In this way unreported and duplicate payments will be eliminated. The father will be assuming his responsibility and support his children rather than letting the county do it.

"If he doesn't meet these payments, he wil go to jail instead of being placed on probation.

"This is the first time in Placer County's history that the judges, district attorney's office, probation and welfare department are joining efforts to see to it that father assumes his moral and legal obligations.

"With the father out of the home in a majority of ANC cases, the seriousness of the problem can be readily seen. With the full cooperation of the welfare department assured us, we can see to it that a father does not get out of his responsibilities. All of the judges agree as to the need for such a step."

SALVATION ARMY LEADER TO VISIT S.A. LYTTON HOME

N. F. Dolley, chairman of the Truckee-Tahoe Salvation Army Committee, announced today that the international leaders of the world-wide Salvation Army, General and Mrs. Wilfred Kitching, will be guests of honor at the 50th anniversary celebration to be held at The Salvation Army's Lytton Home and School for Boys and Girls on Thursday, September 23. The Lytton Home is located 70 miles north of San Francisco near Healdsburg.

The commander-in-chief of the International Salvation Army will visit Lytton as one of his first stops on a "get acquainted" tour which will take him from his London headquarters to many of the Army's far-flung religious and welfare institutions.

The all-day Lytton anniversary program, to which the public is cordially invited, will feature an acquacade, band concert, parade, animal display by 4-H, and F.F.A. members, and a barbecue lunch after which the general will address the host of Army friends and neighbors.

Governor Goodwin J. Knight, state honorary chairman, has mailed to representative citizens of this community and interested friends of The Salvation Army an invitation to attend.

In announcing plans for the double celebration, Dolley pointed out that the Lytton visit of General and Mrs. Kitching will be their only public appearance in northern California, outside of the Bay Area.

Raymond C. Hackett Joins Navy at Reno

Raymond Charles Hackett, son of Mr. and Mrs. John Strong of Truckee, was enlisted in the U. S. Navy on August 17, according to T. F. Abernatha, U. S. Navy recruiter, in Reno.

At present Hackett is undergoing recruit training at the naval training center in San Diego, for a period of eleven weeks. Upon completion of this training he will be granted a short leave to return home.

URGES CHILDREN TO ATTEND CLASSES

TAHOE CITY—Mrs. G. D. Waters, superintendent of the Sunday school at Tahoe City is urging all parents to see that their children are at Sunday school each Sunday morning. After Labor Day, the classes will resume at 10 a.m. at the Community Center and all denominations are welcome to attend, the teachers are provided for all ages.

Apparently believing they are going down to sea, fish tend to follow the flow of water drawn into the Central Valley Water Project pumping plant near Tracy; many enter irrigation canals and become fertilizer.

BY THOSE WE SERVE

The only District which serves you with your Water and Power is owned by the people it serves.

We are in business for the benefit of the people whom we supply with the magic of Electricity and Water.

THIS MEANS THAT WE AIM TO:

Give you good Electric and and Water Service at the lowest possible rates.

Operate as a business-managd, tax saving, self-supporting enterprise.

See that Electricity and Water plays its rightful role in bringing better living . . . to the people we serv.

TRUCKEE PUBLIC UTILITY DISTRICT
"A Tax-Saving, Public Service Enterprise

SUMMIT SCENE

by FRAN COUILLARD

We are still hibernating at Kingvale which doesn't get us out on "Broadway" much any more. The "strip" called Broadway—that portion of Highway 40 between Cisco and the Summit might miss our presence. On the other hand we miss the news. The foregoing is apology for no column for a few weeks. So we put away our current writings for a few hours and take up where Summit Scene left off a few weeks ago.

Couldn't miss commenting on snow in August!

"We've had it," said I, "behold it and Lo!" As I watched August rain turn into a snow! Did any of you ever see it before? Or hear tell of it in mountaineer's lore? See the Merica kids in snow suits that day, as they rolled snow white balls and pelted away? Hear truck drivers curse as we drove by in low? At the very first flake of this year's first snow? See drivers skid around on a road wet with slick? Whilst we carefully the dry spots did pick? See crabby drivers slap on a brake, as they looked in amazement at a summer snow flake? See things topsy turvey—between and betwixt? When a snow fall came here on August 26? So put away shorts,—quit ohhing and geeing! And get out your boots—its time to go skiing.

And the crazy white stuff stuck with us for awhile too!

We told you that next year we'd give you ample notice for next year's retreiver dog tryouts. Now we put a note down for another future reminder—and that is Lillian Keber's Summer Ballet School which was held this year at the Hoyfyellet Lodge on Castle Creek and, according to Lillian, will be held there again next year. Lillian, anxious to have her dancers get the experience of appearing often in public had them booked all around this and the Lake Tahoe area. We saw the younger group at Rotary Club in Donner Lake Lodge on August 23. Last Saturday night a different group performed at Donner Summit Lodge for mountain vacationeers. Understand that the Saturday night before the teachers performed at Donner Summit Lodge—and we're sorry that we missed that show—especially if Lillian danced. Lillian, incidentally, as part of an illustrious career, spent a portion of her show days with the Harry Owens company. Well, anyway, the troup will dance under the pines of Castle Creek on their next year's summer ballet junket and perhaps with a bit of advance notice—you'll all be able to watch these talented youngsters. John and Celia Zahara, owners of the Hoyfyellet are no mean dancers themeselves and we remember twelve or thirteen years back when they thrilled onlookers with their superb folk dancing exhibitions. Daughter Jeannine Zahara, now one of the star performers of the Keber school, and perhaps it is inherent—but her movements are sheer perfection.

A short drop in at Rainbow Tavern find owners Ken and Esther with a brand new Oldsmobile. That didn't seem to thrill them half so much, however, as the fact that Joe DiMaggio had lunched there that same day.

We hope we can fullfil our our date to jeep it out to the Palisades. Captain and Mrs. D. L. Mills of the U. S. Naval Air Station, Miramar, San Diego, being out there, we'd like time for a visit wth them. Remember Nina Heyman? Well, Nina is the Mrs. Mills we yen to visit, being friends of long standing.

The Kingvale Belles really rang long and loud this past couple of weeks as guests, and more guests, expanded the walls of the Flood building. Francis Johnson (Johnnie) Sutter Hospital), Lucille Murphy (Chum), Sacramento tax collector's office, hostesses—give us this list of names that have been written in their guest book:

Vivian (Pinky) Berggren, of Nevada City, complete with famly, which is Canine Setter, Tim. Pinky, daughter of Jeweler Berggren of Nevada City, well known throughout the county, is on the staff of the Nevada County Elementary School Nurses and is a perinial visitor to Ye Flood Building. From Grass Valley we met Maxine Sleeper (Max), who also represents the educational division of Nevada County—being a teacher at Grass Valley High School. Eileen Walsh (Miss Dominican—said congnomen obvious) is also well known—being an Auburn Gal. Eileen is with the Catholic Welfare Bureau in Sacramento, and is neice of Postmaster Walsh of Auburn. Related to all the other Walsh's in Auburn, too.

We meet Mildred Lundine who is an ex-ray technician in the Town and Country Sector of Sacramento County. Mildred is affectionately known as "Ole."

LaVerne Johnson (Johnny, Jr.), from San Francisco is way up there with the Robert Dollar outfit and can talk intelligently on radar and such. Bessie Schwinof (called John L.), due to the Red Ski unmentionables she wears in summer and winter, whilst she vacations in the mountains) is the stately gray-haired gal with an unquenchable twinkle in her eye. Bess is registration nurse at the Sutter Hospital in Sacramento. Fleeta Coffer (Fleeter Mouse), with her round pretty face and beautiful smile is on office staff at Sutter—and assistant to our Frances (Johnnie) Johnson. Meet Barbara and Dutch Welsh—also of Sacramento—Barbara with Sacramento Radiation Therapy Center and Dutch—parts manager for Henderson Brothers of Sacramento. Dutch should be called the "brave one" in lieu of a nickname other than Dutch—for Dutch was the only male to brave this bevy of business beauties during a three-week gala holiday.

Elmo Moriano contributed to the good time of the above mentioned —with barbeques, parties and what not—whilst Jeannie and John Carl jeeped a group of them into the mountainous regions hereabout for pine cone hunting and sightseeing. With the Labor Day holiday the Belle's house, across the road from us, will shutter up fo rthe winter season and we'll be minus a few hilarious hours a day whilst we hold the Kingvale Fort alone.

Still sticking in spite of the past bad weather, tho' are the Duncan Gillies who leave shortly so that Dunc' can resume his teaching profession at San Francisco University; the Art Hendricksens who leave so that Art can resume his instruction at the University of Davis; the Harters who ranch around the Sutter Basin area, and the Strans and Nagels who return to their Roseville businesses. We also see the East Bay Cliff Davids strolling around the path of Kingvale.

The Chickerings (full four families) move out of the Cedars area —regretfully. The Stanley Waltons and Frank Bourdets needs must return to their respective homes (Waltons, Berkeley), (Bourdet's, Burlingame) so that daughters Starr and Penny can return to educational problems. We'll miss Mary and Al Eberhart from Lake Van Norden, too. Al (our youngest and most beloved boy friend—age 7), and his mother camp every year in their trailer whilst Mary and Al fish our many streams and lakes. Back to Loomis they must go.

Arriving for a spell (and not staying long enough), are Bert and Dot Barber, former employes of Donner Summit Lodge, but such long time employes that they are part of the Summit Scene. Bert left this area several years ago to retire in Mentone, Calif., where he had properties, but the mountains call him back each year. They rewarded his return this year with plenty of good fishing, and the six-pounder he caught in Lake Tahoe a few days ago, made him say that he might be back next summer for the whole summer.

Lake residents while they are here, to be near good friends Irene and Ernie LaPere of Lake Forest—and Eve and Tony Donadio of Tahoe City.

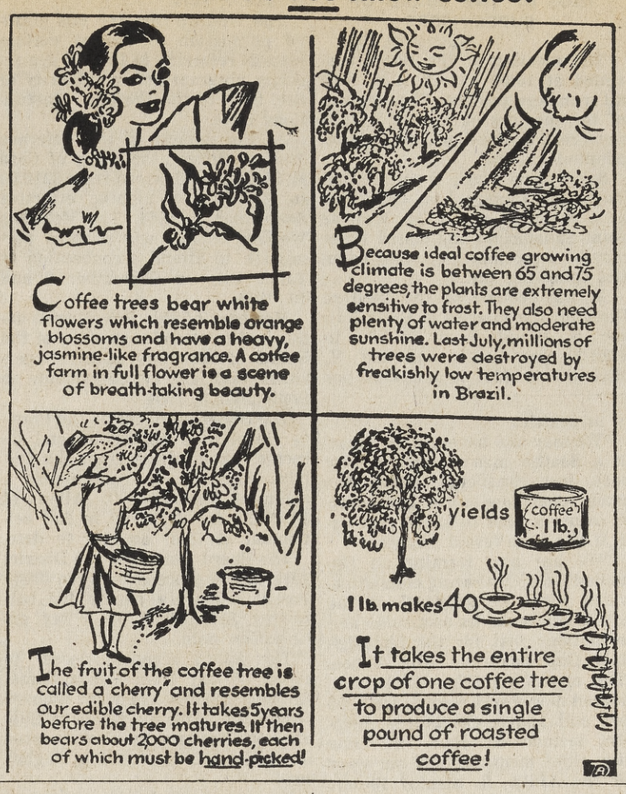

Its funny when you live in an interesting area—that oftimes your guests are responsible for getting you "out" to see places that you have always wanted to visit—but always think "I'll make it next week" or "next season." This applies to Elmo and Jean Moriano (Beacon Hill), who entertain Elmo's uncle and aunt from San Francisco, Vera and Louis Micclotti. "Uncle Louie" with a desire to see Forest Hill the hard way—which means taking the back road through the Cedars country, Lost Emigrant Mine—(oh, heck, look at your map), lured Elmo and Jeannie out in the jeep to make this trail. Once started—the foursome made a historical cruise out the day seeing Colma and a great many other historical spots. Rested from this (and wedging a barbeque in 'tween times, which took in the whole Moriano family including "Sis" and Bob Leando and children, and Papa and Mama Moriano (Emma and Fel), the intrepid foursome went for a sightseeing trip over Nevada way to Virginia City and places like that there.

The close of the Beacon Hill Coffee Shop for a week was sadly occasioned by the death of Elsie Beiler's mother. Elsie, who leases the establishment, was notified that her mother passed away in Harrisburg Pa.

Visiting Bill Rutherford of Donner Summit Lodge, of late, were Muriel Engler and Lillian Allen, both teachers on Bill's former staff. Lillian Allen is now educational director of the McClatchy Newspaper Radio Chain.

We say goodbye for another period to Virg, Wanda, Rickey and Sandy Misener who have been half-vacationing in their Soda Springs home. By half we mean that in the three weeks that Virg' took off—a portion of his vacation was spent in Utah, beginning and ending of said vacation — spent at Soda Springs. Had a nice time gabbing with them over the dinner table.

By the way, fishing has been good up this way, from reports, and if you're slapping the waters around the Kingvale area drop in and rest. We'll be glad to see you.

PAYS FINE

TAHOE CITY—William C. Callender of Homewood appeared for trial before Judge Harry Charrison in the Tahoe District Court last Monday and was fined $200 for selling intoxicating liquor to minors

Callender told the court he believed the boys had been questioned about their ages.

Finance Director Would Save State Rent Money

SACRAMENTO (CNS)—The state department of finance has undertaken a study of long range state building needs in California's capital city.

Department Director John M. Peirce reported to Governor Goodwin J. Knight that buildings under construction and in preliminary planning stages should, when completed, do away with rented state offices in Sacramento within 10 years.

According to the department, state agencies now are located in more than 60 rented offices in the city, for which the state pays $617,000 a year.

PORTER GUESTS

TAHOE CITY—Mrs. Noel Porter, who has been under the care of her physician in Sacramento for some weeks past, is now recuperated and able to enjoy a Tahoe vacation with her family at their lakeshore summer home near the taven. Guests include their son-in-law and daughter, Mr. and Mrs. Herman Rauh and children, Beverley Louise, Teddy and Rickey, and a guest, Mrs. Frances Sloate, all of Sacramento.

Interest Grows As Time Nears For Cup Races

TAHOE CITY—Enthusiasm waxes high as the dates for Lake Tahoe's second annual Sky High Gold Cup regatta approach. They are September 11 and 12, and this year will be held at Pope's Beach, next to Richardson's Camp, on the west shore of Lake Tahoe.

The big regatta is sponsored by the Lake Tahoe-Sierra Chamber of Commerce, under the supervision of the American Power Boat Association. Money obtained from the sale of seats goes toward the defraying of expenses in staging the big show, and providing trophies and prizes for the race drivers.

On hand by the committee is $3100 in cash which will be paid out to winners as follows: First place, $100; 2nd place, $70! 3rd place, $50; 4th place, $40, and fifth place, $35.

Some data and the program of events follows: Drivers wishing to qualify for the unlimited may so so between 8 a.m. and 12 and between 1 and 5 p.m. on Friday, September 10, and they may also qualify on Thursday, September 9, any time between 10 a.m. and 4 p.m. All drivers are meeting at 8 p.m. Friday, September 10, at Stateline. Limited Drivers to be at pits at 9 a.m., September 11 and at 8 a.m. September 12.

The program follows:

First event—Pacific design hyroplanes	10:00 a.m.
E. racing runabouts	10:20 a.m.
B. racing runabouts	10:40 a.m.
Cracker boxes	11:00 a.m.
136 Cu. in Hydros	11:20 a.m.
48-cu. in. hydros	11:40 a.m.
135-cu. in. hydros	12:00 noon
225-cu. in. hydros	12:20 p.m.
266-cu. in. hydros	12:40 p.m.

Perpetual Gold Cup Unlimited Lake Tahoe championship race for ladies. The only race of its kind in the world, 1 p.m.

Gold Cup Sky-High Unlimited hydroplane Lake Tahoe championship race for the $5000 Mapes' perpetual trophy, 1:30 p.m. (first heat), September 11; second heat for the championship race at 9 .m., September 12 and third heat at 1 p.m,. September 12. Second heat for all other races will be run at the same time as the first on September 12. Winners last year of the perpetual trophy honors were R. Stanley Dollar, Jr., and Mrs. Ollie Meek of Piedmont. Winners of this prized achievement get to keep the beautiful trophies for one year and have their names, and the speeds of their boats, engraved on the cup.

A three-mile course was set by the racing committee, the men's championship race to cover five laps, or 15 miles at each heat, with a total of 45 miles in all. The women's championship will be over three laps, and two heats, one each day. The limited will run three laps over a two and one-half mile course, two heats, one each day.

Fred Main of the Tahoe Boat Company, who is president of the Lake Tahoe-Sierra Chamber of Commerce, sponsors of the big regatta, is most enthused over this year's entries and the prospects of a highly successful, and history-making show.

Says he: "I can safely say now that never before in any single race in the entire United States has such a large array of top drivers been entered. We have 126 limited class boats already signed up, and there wil be nine entries in the Unlimited Gold Cup classic. A new trophy is being added this year. This will be an expensive and beautiful trophy to be awarded to the most outstanding driver of the two-day regatta. Judges who will select the winner will be the drivers themselves who will name the lucky man before the presentation of the other trophies and prizes at the close of the races.

"Another innovation this year will be the awarding of a trophy to the 'hard-luck' driver of the two-day events, the choice of the drivers at the close of the races, some one who might have his boat turn over, fire break out, need hospitalization, or suffer some similar plight.

"Name of the trophy donor for this unusual situation is not known as yet, as several are asking t give. We are also letting the seven leaders run this year with the unlimited class. These are in between the limited and the unlimited. They must be 20 feet long and must not exceed 421 cubic inches. We expect to have four of them entered, one of these having reached a speed of 131 mph recently in Seattle.

"We may also have a 'dark horse' in a Seattle man's entry, a new boat, just completed, which has made some good runs, but which its owner wishes to keep mum until it has been tested further.

"We are now forming an Unlimited Gold Cup racing committee, which with the approval of the APBA will make its own rules and regulations just for the Sky-High Gold Cup races at Lake Tahoe. Then any new marks will be considered new world records for 5000 feet and above. Committee members include Al Hart of Yuba City, chief measurer and surveyor for the APBA, R. Stanley Dollar, Jr., Jay Murphy, Henry J. Kaiser and William Stead of Reno.

"Now all we ask for is two good days from the weather man."

Competition is going to be keen for the championship, with some newcomers arousing intense interest among racing fans. To be seen in action is J. Philip Murphy's new Breathless, powered with an Allison airplane engine that boats approximately 2200 HP and was clocked in the qualifying run at Seattle's Gold Cup races this year at 92.708 MPH. She is here now waiting at the Murphy's Sunnyside pier for a calm day for a try-out, her owner expects the boat to make around 130 MPH on the straightaway.

Roger Murphy, who will have turned 18 by racing time, is entering his trophy-winning 225 cubic inches Galloping Gael in his class, with plans for Miss Susan Sodahall of San Francisco, 21, to drive in the women's championship.

Stan Dollar is getting his 1750 HP Short Snorter in tip top class and promises a good fightto keep his championship rating to one and all comers.

On Monday, August 30, William Stead of Reno brought in to Tahoe his pace-setting Hurricane IV, which after its latest revamping, was reported raised to approximately 3600 HP, a threat to any race.

He was clocked at over 140 MPH at Seattle this year, just before he threw a propellor shaft and had to give up the race. Stead flew east and had the prop shaft cast of steel, and some experts are wondering if any prop shaft can take the terrific power the boat generates. Down at the Henry J. Kaiser estate over the weekend welder Jack Regis of Livermore, who won the Tahoe Yacht Club's Lake Tahoe championship race over Stan Dollar this year in Kaiser's newly reconstructed 1750 HP Allison engined Scooter, gave the speedy craft a good tryout on lake waters.

SUMMARY OF THE PROCEEDINGS OF THE BOARD OF SUPERVISORS

August 20, 1954

The meeting of the Board convened at 10:00 o'clock A.M. with all members present. The minutes of the meeting of August 2, 1954 were read by the Clerk and ordered adopted as read.

Supervisor Clark reported that Tuolumne County has withdrawn as a member county of Weimar Joint Sanatorium and stated there may be a possibility of other counties following suit.

At the request of the Welfare Director, the salaries of Getta Roscoe is raised from $210.00 to $220.00 per month, and Ida V. Michell from $231.00 to $243.00 per month, effective on and after September 1, 1954.

The Welfare Director was granted permission to destroy certain records referring to the old age security program under authority of Sec. 2190 of the Welfare Institutions Code.

At the request of the Veterans Welfare Officer, the salary of Cora M. Shetler is advanced from $210.00 to $220.00 per month, effective September 1, 1954. The Veterans Welfare Officer was granted permission to attend a convention at Tahoe City on September 9 and 10. 1954.

Members of this Board were authorized to attend a meeting of the Board of Directors of the Supervisors Association at Sacramento on September 3, 1954.

The Superintendent of the County Hospital is authorized and directed, upon advice from the District Attorney, to compromise a claim of Wm. and G. Allen of $3,457.50 for $1,000.00 in full settlement of their account to date.

The Board instructed the District Attorney to proceed with the drawing of necessary papers for borrowing $175,000.00 on a tax anticipation note.

The Board accepted deeds to rights of way from Tahoe Forest Hospital District and from Richard Joseph to roads in Gateway Subdivision. Deeds were also accepted for rights of way on the Hughes road.

Supervisor Clark was authorized to be absent from the State of California from September 19 to and including October 31, 1954.

Adjournment is taken for lunch until 2:00 o'clock P. M. On reconvening, the absence of Chairman Guy N. Robinson is noted. Supervisor Loehr was appointed Chairman Pro tem.

The Board adopted a resolution authorizing the District Attorney to institute condemnation proceedings against Richard Plotzke, et ux on the Brighton Street project.

The Board adopted a resolution to provide matching funds on a F.A.S. project during the fiscal year ending June 30, 1956.

The Road Commissioner was authorized to purchase one Pettibone Wood Spreader Box, Model No. 840 for $919.79.

The Road Commissioner was authorized and directed to cause to be advertised through the Purchasing Agent for bids for laying approximately 2500 tons of plant mix surfacing at Gateway Subdivision near Truckee.

The Board adopted a resolution of intention to purchase for $10,000.00 the Almquist property at the top of Boulder Street in Nevada City for a maintenance yard, said purchase to be consummated on October 1, after duly publishing notice of said purchase in the Nevada City Nugget, as required by law.

The Road Commissioner was authorized to procure immediately 2500 tons of aggregates from Clements Construction Company. The Road Commissioner was also authorized to enter into a lease rental agreement for one portable crushing plant and one motor grader.

The Board declared two Austin Western stationery crushers and one cat No. 10 grader no longer needed for public use and directed the Purchasing Agent to advertise the same for sale to the highest bidder.

The Board ordered that the final hearing on the budget will be held on August 27, 1954, at 10:00 o'clock A.M., and directed that no other public business be taken up at this meeting.

Adjournment is taken to Friday, August 27, 1954, at 10:00 o'clock A.M.

R. E. DEEBLE
County Clerk & ex-officio Clerk of the Board of Supervisors.

CERTIFICATE OF FICTITIOUS NAME

NOTICE IS HEREBY GIVEN that Kenneth P. Foster, Post-office box 1253, Truckee, California, Harry Digesti, Post-office box 732, Truckee, California, and Jerome A. Little, Post-office box 575, Kings Beach, California, have joined together and formed a partnership doing business in the fictitious firm name of 'Truckee Tahoe Fuel Company'; said company having commenced business operations on the 9th day of August, 1954, with its principal place of business located in the town of Truckee, County of Nevada, State of California. Further, that the three individuals named above comprise the total membership engaged in said business as partners.

Dated: August 9, 1954.

TAHOE FOREST ACTIVITIES

Tree Nurseries

Both the United States Forest Service and the California State Division of Forestry carry on rather extensive programs of growing of trees in nurseries for planting on a commercial basis. The basic purposes of the two agencies differ, however, in this respect: The U. S. Forest Service produce stock for the exclusive use of planting on National Forest lands, while the state grows stock to resale to private land owners. The state agency, therefore, produces a wider variety of stock for it is their intent to provide suitable trees for the coastal area (Cypress and Redwood), foothill areas (low altitude variety of Pine), and mountainous areas (Pine and Fir). The U. S. Forest Service is all for high altitude areas so are limited in the main to the pine and fir.

Seed Collection

Each year every National Forest is given a quota of seed to collect of different varieties of trees growing under different site areas. Site areas are established by geographical areas and pretty much on an altitude basis. On the Tahoe, seeds are gathered from four different sites: I—East side, intermediate elevation, VII—East side, high altitude, II—Low altitude, West side (4000'), and III—High altitude West side (above 4000').

During the late summer just before the cones open up to drop the seed, the cones are gathered and taken to a central extraction point. This location is at White Cloud Guard Station, located 15 miles east of Nevada City on Highway 20. There the cones are sun-dried and when the cones open, the seeds shaken out and sacked.

The extracted seed are sent to the nursery located near Mt. Shasta, and are planted.

Nursery Work

The planting and growing of these trees is a large operation and is well mechanized. Usually the seed are planted in the fall of the year in "seed beds." At the end of the first year, they are then transplanted in rows and grow under careful attendance for one more year. At this time, they are shipped to the various forests and planted in the same site areas from which the seed was first gathered.

Forest Tree Planting

Seed collection, nursery growing and planting in the National Forest is an expensive operation. It hardly pays off on a strict dollar and cents basis. Thus in areas where sufficient seed trees are left to reseed the area, the Forest Service lets nature take care of the reproduction. Nature can eliminate the expensive man-made process.

However, there are large areas which do not have sufficient seed trees to do the job fast enough to assure a continual supply of commercial trees. This condition usually results from large burns or from epidemic diseases. In these areas, the Forest Service steps in and gives nature a hand at putting a cover on the ground that is of

NOTICE TO VOTERS

NOTICE IS HEREBY GIVEN to the electors of the State of California that the following Bond Act will be submitted to the People of the State of California for their ratification at the next general election to be held on the second day of November, A.D., 1954.

FRANK M. JORDAN,
Secretary of State.

FOR THE VETERANS BOND ACT OF 1954. This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes.	1
AGAINST THE VETERANS BOND ACT OF 1954. This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans.	

This proposed law, by act of the Legislature passed at the 1954 First Extraordinary Session, is submitted to the people in accordance with the provisions of Article XVI of the Constitution.

(This proposed law does not expressly amend any existing law; therefore, the provisions thereof are printed in BLACK-FACED TYPE to indicate that they are NEW.)

PROPOSED LAW

An act to add Article 5e to Chapter 6 of Division 4 of the Military and Veterans Code, authorizing the creation of a debt or debts, liability or liabilities, through the issuance and sale of state bonds, to create a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and acts amendatory and supplemental thereto; defining the powers and duties of said committee and of the Department of Veterans Affairs and other state officers in respect to the administration of the provisions hereof; providing ways and means, exclusive of loans, for the payment of the interest of such debt or debts, liability or liabilities, as such interest falls due, and also for the payment and discharge of the principal of such debt or debts, liability or liabilities, as such principal matures; and providing for the submission of this act to a vote of the people at the general election to be held in the month of November, 1954.

The people of the State of California do enact as follows:

Section 1. Article 5e is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 5e. Veterans Bond Act of 1954

996.25. This article may be cited as the Veterans Bond Act of 1954.

996.26. For the purpose of creating a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and of all acts amendatory thereof and supplemental thereto, the Veterans' Finance Committee of 1943, created by Section 991, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof.

996.27. After adoption of any resolution by the Veterans' Finance Committee of 1943, provided for in Section 996.34 the State Treasurer shall arrange for the preparation of the requisite number of suitable bonds in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this article shall not exceed the sum of one hundred seventy-five million dollars ($175,000,000) and shall bear interest at a rate not exceeding 5 percent per annum payable as provided in such resolution. Both principal and interest shall be payable in lawful money of the United States, at the Office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer.

All bonds issued under this article shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943. The Veterans' Finance Committee of 1943 may require that said bonds be authenticated by the State Controller or by any Deputy State Controller, and in such event no bond authorized hereunder shall be valid unless so authenticated in the manner so required. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, shall be and constitute a valid and binding general obligation upon the State of California, although the sale or delivery thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the date of adoption of the resolution of the Veterans' Finance Committee of 1943. Each bond issue under this article shall contain a clause or clauses referring to this article and to the resolution of the Veterans' Finance Committee of 1943 hereunder by virtue of which said bond is issued, and if subject to call or redemption prior to maturity, shall contain a recital to that effect.

996.28. The State Treasurer shall, on the respective dates of maturity or prior redemption of said bonds, or as soon thereafter as said bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 996.29 and perforate the bonds so paid with a suitable device in a manner to indicate such payment and the date thereof. The State Treasurer, or his duly authorized agent, shall also, on the respective dates of maturity, cancel all bonds and appurtenant coupons bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof; provided, however, new bonds may be prepared and executed in lieu of bonds canceled solely by reason of the fact that such bonds have not been sold prior to their fixed maturity dates, whenever the Veterans' Finance Committee of 1943 shall determine such new bonds shall be prepared and executed, subject to the condition the total indebtedness created hereunder shall not exceed the maximum limit herein specified. Not less than four years after the final maturity date of a particular issue of bonds, the State Treasurer, or his duly authorized agent, may destroy or cremate any bonds of such issue which have been previously paid or canceled as hereinbefore provided.

996.29. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund In the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this article, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collections of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be returned into the General Fund in the State Treasury, all of the money in the Veterans' Farm and Home Building Fund of 1943, not in excess of the principal of and interest on the said bonds then due and payable, except as hereinafter provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity being less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 as soon thereafter as it shall become available, together with interest thereon from such dates of maturity until so returned at the same rate as borne by said bonds, compounded semi-annually.

Both principal and interest of said bonds shall be paid when due upon warrants duly drawn against said appropriation from the General Fund by the Controller of the State in favor of the State Treasurer, or his duly authorized agent, and the money to be returned into the General Fund in the State Treasury pursuant to the provisions of this section shall likewise be paid as herein provided upon warrants duly drawn by the Controller. The Department of Veterans Affairs, by resolution approved by the Veterans' Finance Committee of 1943, shall direct the State Treasurer to call bonds (which are then subject to redemption) if such call is desirable and whenever funds are available to effect such redemption, the part of each issue so called to be not less than all of the bonds maturing in any one year. Notice of such redemption shall be given by the State Treasurer in the manner provided in the resolution authorizing the issuance of said bonds.

996.30. The bonds authorized to be issued under this article shall be sold by the State Treasurer to the highest bidder for cash, either at public auction or upon sealed bids as the Veterans' Finance Committee of 1943 may by resolution determine. The Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as he may select. If said bonds are offered for sale upon sealed bids, then each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars ($5,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Veterans' Farm and Home Building Fund of 1943, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

996.31. Due notice of the time and place of sale of all bonds shall be given by said Treasurer by publication in one newspaper published in the City and County of San Francisco and also by publication in one newspaper published in the City of Sacramento and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars ($500) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said Treasurer into the Veterans' Farm and Home Building Fund of 1943 and must be used exclusively in aiding veterans in the acquisition of, or payments for, farms and homes, in accordance with the provisions of this chapter; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof.

996.32. The Department of Veterans Affairs is authorized, with approval of the Department of Finance, to invest any surplus money in the Veterans' Farm and Home Building Fund of 1943 in bonds or obligations of the United States, or of the State of California, or of the several counties or municipalities or other political subdivisions of the State of California, and to sell such bonds, or obligations, or any of them, at the governing market rates, upon approval of the Department of Finance; or the Department of Veterans Affairs may, with the approval of the Director of Finance, invest money in such fund, in interest-bearing certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars ($500,000) or more; provided, the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, nothing herein contained shall inhibit the depositing in banks in accordance with Chapter 4, Part 2, Division 4, Title 2 of the Government Code, of money of any of the funds subject to the control of the Department of Veterans Affairs or appropriated for its use.

Interest accruing upon the deposit of money of the Veterans' Farm and Home Building Fund of 1943 shall be paid into and credited to said fund.

996.33. Upon request of the Department of Veterans Affairs, supported by a statement of the plans and projects of said department with respect thereto, and approved by the Governor, the Veterans' Finance Committee of 1943 shall determine whether or not it is necessary or desirable to issue any bonds authorized under this article in order to carry such plans and projects into execution, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to carry out said plans and projects progressively, and it shall not be necessary that all the bonds herein authorized to be issued shall be sold at any one time.

996.34. Whenever the Veterans' Finance Committee of 1943 shall have determined that the sale of all or any part of the bonds authorized to be issued under this article is necessary or desirable to carry such plans into execution, in whole or in part, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite number of suitable bonds then authorized to be sold and shall specify as to such bonds then to be sold:

1. The maximum number of each denomination or denominations, aggregate par value, and the date of the bonds to be then sold. The date appearing on said bonds shall be deemed to be the date of issuance for all purposes of this article, irrespective of the actual date of delivery of such bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

2. The date or dates of maturity, and the number and numerical sequence of the bonds maturing at each date of maturity, to be at annual intervals.

3. The provisions, if any, for the retirement of said bonds at any time or times prior to their maturity, the manner thereof, and the price or prices at which said bonds shall be redeemed.

4. The annual rate of interest which the bonds to be issued shall bear, to be in multiples of one-fourth of 1 percent, which rate, at the discretion of said committee, may be determined by the bidder at the time of sale of said bonds, not to exceed 5 percent payable as herein provided.

5. The provisions, if any, for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any Deputy State Controller.

6. The technical form and language of said bonds and of the interest coupons to be attached thereto.

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the Veterans' Finance Committee of 1943 shall be guided by the amounts and dates of maturity of the revenues estimated to accrue to the Veterans' Farm and Home Building Fund of 1943 from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated revenues; provided, the bonds first to mature in each issue shall mature not later than five years and the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division, and may be determined and fixed by the Veterans' Finance Committee of 1943 by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (If any) from the total amount of interest which the State would be required to pay from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the State. The lowest net interest cost to the State shall be computed on a 360-day year basis. The interest coupon first payable may, if the Veterans' Finance Committee of 1943 shall so determine and specify, be payable at any time within one year after the date of issuance of said bonds.

996.35. All actual and necessary expenses of the Veterans' Finance Committee of 1943 and of the members thereof incurred in the performance of their duties arising out of the provisions of this article and expenses incurred by the State Treasurer in having said bonds prepared and in advertising their sale or their prior redemption shall be paid out of the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

Whenever the Veterans' Finance Committee of 1943 deems it advisable to obtain a legal opinion as to the validity of the bonds, prior to or after sale, from attorneys other than the Attorney General, the committee may authorize the State Treasurer or the Department of Veterans Affairs or both to obtain such a legal opinion. Payment for such legal services shall be made from the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

996.36. The Controller, the Treasurer and the Veterans' Finance Committee of 1943 shall keep full and particular account and record of all their proceedings under this article, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this article shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State.

996.37. So long as any bonds authorized under this article may be outstanding, the Director of the Department of Veterans Affairs shall cause to be made at the close of each fiscal year, a survey of the financial condition of the Division of Farm and Home Purchases, together with a projection of the division's operations, such survey to be made by an independent public accountant of recognized standing. The results of such surveys and projections shall be set forth in written reports and said independent public accountant shall forward copies of said reports to the Director of the Department of Veterans Affairs, the members of the California Veterans Board, and to the members of the Veterans' Finance Committee of 1943. The Division of Farm and Home Purchases shall reimburse said independent public accountant for his services out of any funds which said division may have available on deposit with the Treasurer of the State of California.

Sec. 2. This act shall take effect upon its adoption by the people as to all its provisions except those relating to and necessary for its submission to the people, and for returning, canvassing, and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

Sec. 3. This act shall be submitted to the people of the State of California for their ratification at the next general election, to be held in the month of November, 1954, and all ballots at said election shall have printed thereon and in a square thereof, the words: "For the Veterans Bond Act of 1954," and the same square under said words the following in eight-point type: "This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes." In the square immediately below the square containing such words, there shall be printed on said ballot the words, "Against the Veterans Bond Act of 1954," and in the same square immediately below said words, in eight-point type shall be printed "This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans." Opposite the words "For the Veterans Bond Act of 1954" and "Against the Veterans Bond Act of 1954," there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against said act, and those voting for said act shall do so by placing a cross opposite the words, "For the Veterans Bond Act of 1954" and those voting against the said act shall do so by placing a cross opposite the words "Against the Veterans Bond Act of 1954." Provided, that where the voting of said general election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, such use of such voting machines and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section. The Governor of this State shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

Sec. 4. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appear that said act shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

Sec. 5. It shall be the duty of the Secretary of State in accordance with law to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this State, for three months next preceding the general election to be held in the month of November, 1954. The costs of publication shall be paid out of the General Fund, on Controller's warrants duly drawn for that purpose and shall be refunded to the General Fund out of the Veterans' Farm and Home Building Fund of 1943. Said refund shall be made upon Controller's warrants duly drawn against said fund for said purpose upon demands audited by the State Department of Finance.

AFFAIRS OF STATE

by Henry C. MacArthur

SACRAMENTO (CNS)—The unprecedented peace-time growth of California during the past four years, as estimated by John M. Peirce, state director of finance, gives Californians cause for thought along the lines of resources for a 1965 population of 16,225,000.

The time consumed in the culmination of planned public works constructed under the supervision of government has not so far permitted the state to keep up with its present population.

For instance, the huge Feather River Project, which contemplates construction of a mammoth dam near Oroville, and a series of canals to divert water across the Tehachapis as far south as San Diego is as yet only in its preliminary stages, with no assurance so far that it is going ahead.

Water conservation thus becomes the prime consideration in connection with population increase, and although some predictions have been made that there is plenty of water in California for everyone, there is yet to come from the State Division of Water Resources an estimate of how many people California's average water supply can serve during a year.

Peirce's projects figures indicate approximately a 23 per cent increase of people in a little more than 10 years. Considering that services demanded by the population are equal to the projected increase, there would be a need for 23 per cent more domestic water, at least, than there is at the present time.

Additionally, there would be a need for 23 per cent more state institutions, such as prisons, mental hospitals, colleges, grade schools, conservation projects, etc. Although the amount of old age assistance appears to be slacking off some, not all of the elderly will be on federal pension in 10 years, and a consequent increase in the amount of this government expenditure will result.

And above all will be the necessity of new business to provide jobs for the increased population. A lot of this new business will accrue naturally, but the increase will demand more industry for basic earnings.

It is also anticipated that the state's highway building program will be found inadequate, as more than a million additional automobiles will be crowding California highways. Much of the projected population, however, was taken into consideration when the current road building program was planned, but people driving the highways today consider the largest part of them inadequate to handle the traffic they are required to handle, especially in the southern California areas.

Population figures are watched closely by the Department of Finance, and the projections of that department in the past have proven reasonably accurate, and if wrong, primarily on the conservative side.

Consequently, this current projection is no snap judgment issued to make people believe there is a need for additional government expenditures that could be delayed or forgotten.

Department of finance is aided in its population estimates by many different agencies, some public and some private, all of which are concerned with the rising trend.

Thus, for any future state administration, the outlook is not one of moving ahead slowly, but of attempting to catch up with the public works which were delayed during the war years, plus that which will be needed in the years to come.

ROADSIDE DEBRIS PROBLEM GROWS AS TRAFFIC RISES

The tremendous increase in highway traffic over the past few years has greatly complicated the problem of keeping roadsides clean, according to the California State Automobile Association, and no measures yet discovered have been able to solve the matter.

As an experiment, receptacles in which motorists may deposit the accumulation of cans, bottles, waste papers, tissues and other debris which accumulate in their cars have been placed at selected locations along the highways, but this has several disadvantages.

It tends to place the Division of highways in the garbage-collection business. Some people have taken to depositing their kitchen refuse, and even liquid garbage in the containers. Sometimes civic-minded motorists, going to the receptacle to deposit trash from their cars, have found it completely filled with household debris. Some containers have been stolen.

Companies operating service stations have been approached to provide places where motorists can deposit waste from their automobiles but for various reasons show little disposition to do so.

The move which shows greatest promise thus far is a plan to educate motorists to keep a paper bag in their cars, in which to place trash as it accumulates, and then deposit the bag and contents when they come to a suitable receptacle—even taking it home for disposal in the family garbage can.

Some container companies are already manufacturing waterproof bags for this purpose.

The San Francisco Public Library has a file of the "San Francisco Bulletin" from October, 1855.

Stellar sea lions, the California harbor seal and Pribilof fur seal are seen around the Farallone Islands off San Francisco.

Forests mean wealth to California. Help protect them by being careful with fire at all times in wooded and grassland areas.

Drivers Warned As School Slated To Open On Tues.

SACRAMENTO (CNS)—The California Highway Patrol today warned motorists to increase their driving precautions as thousands of children head back to school this month.

Caldwell reviewed school bus law:

"The law requires motorists to come to a complete stop when they approach a school bus which is standing and has its red lights flashing.

"The only exceptions are when the bus is on the opposite side of a divided highway or when it is stopped at a traffic signal. If the red lights are not flashing it is not necessary to stop."

The commissioner said drivers must be watchful when approaching children walking or riding bicycles.

"Be ready for the unexpected," Caldwell warned.

Dr. Elizabeth Manning has returned to her home at Levenworth, Kan., following a visit with her sister, Mrs. Minnie Martini.

Man Injured By Fall Is Fined For Drunk Driving

William N. Rushin, 42, Grass Valley, employed on a Southern Pacific crew at Norden was injured in a fall at his work and went to see his doctor in Truckee. The doctor advised him to go to the hospital but instead Rushin went home.

A short while later he decided that after all he had better see the doctor again and was proceeding toward Truckee when he was stopped by Patrolman T. F. Sheehan and booked on a drunk driving charge.

A plea of guilty brought a $250 fine in the court of Judge F. W. Wilson.

Three New Members In Girl Scout Troop

Ireda Harris, Dorette Rose, Linda Giovannoni became members of Donner Girl Scout Troop at the meeting on August 31 with their leader, Mrs. Oliver Scow, conducting the ceremony.

Badges for nutrition study were presented to Ruth Parkhurst, Mary Ann Faulkner, Judy Giovannoni, Susan Scow, Lois Freeman, Elethia Marquis.

Refreshments were served by Mrs. Jim Harris and Mrs. Frank Giovannoni. Mesdames Kenneth Faulkner, Chester Marquis, J. Harris were guests of the troop.

CAR THIEVES HELD FOR GRAND THEFT

The two Salt Lake City youngsters, 14 and 16 years of age, captured near here last week by the California Highway Patrol following a wild chase by Nevada officers have been charged with "grand theft, auto" in Reno.

The boys allegedly stole the new Mercury from George A. Wakeman of Reno.

Near the Flycasters they overturned the vehicle in the road and attempted to hide in the nearby bushes. Later they were both apprehended and returned to Reno.

The boys admitted, police said, that they stole a car in Ogden in which they managed to elude police who chased them.

Suggestions To Aid Holiday Drivers Given

For safer and more comfortable driving over the Labor Day weekend, here are three suggestions from the California State Automobile Association:

Do not plan a trip which will involve driving too fast or too far in the limited time available.

Start early. Hurrying is the cause of many accidents.

If you're over-tired or sleepy you have no business driving. Let someone else take the wheel or get off the road and sleep for a while.

Summer Camp Boats Subject To U. S. Coast Guard Rules

The United States Coast Guard announced today that licensing and safety regulations apply to motorboats operated on navigable waters by summer camps, schools, individuals or organizations for recreation and instruction puposes, Because of their isolated location many of these boats have not been boarded or inspected.

Such vessels are construed as carrying passengers for hire if the expense of their operation is defrayed by charges, assessments or tuitions. Operators of such vessels must be licensed by the Coast Guard, the vessels must carry approved life preservers for every person aboard, sufficient approved fire extinguishers, and must otherwise comply with provisions of the Motorboat Act of April 25, 1940.

Coast Guard officials said any such motor-propelled vessel which is above 15 gross tons is also subject to inspection and may not be operated in such service without a certificate of inspection. Motorboats found in operation in violation of the statutory requirements subject the owner or operator to severe penalties. The vessels are subject to seizure for the enforcement of penalties incurred.

Directors of summer camps and similar activities whose motorboats do not meet requirements are urged by the Coast Guard to communicate with the nearest Coast Guard unit, or with the Commandant, U. S. Coast Guard, Washington, for an explanation of the regulations.

Employment Situation In State Reported Good

SACRAMENTO (CNS) — About four and a half per cent of California's available labor force are unemployed, State Director of Employment William A. Burkett reported.

But, the director said, this is less than the five per cent unemployment ratio which economists of the nation regard as full employment.

The number of employed workers in the state is 4,942,000, Burkett said.

TWO ACCUSED OF DRUNK DRIVING IN LOCAL COURT

It was really a rough day for two motorists, accused, among other things, of drunk driving when they appeared in the Truckee Judicial Court before Judge F. W. Wilson this week.

Raymond Fultz, 56, a Sacramento club chef, who has a summer home near Calpine, was the first in line. He was fined a total of $520, plus $36 tax on charges of drunk driving, hit and run, being on the wrong side of the highway and failure to yield the left side of the highway to an oncoming motorist.

Edward Elliott Carothers, North Fork, employed here with a road construction crew wasn't so easy to deal with, Judge Wilson found. He, too, was charged with drunk driving, speeding and driving with a revoked license. The defendant retained Francis Robichaud to represent him.

Finding that the defendant had three prior convictions during the past five years on drunk driving charges, Judge Wilson decided to hold Carothers on a high misdemeanor count,est his bail at $1000. He is scheduled for arraignment next week.

It all happened following a collision between Fultz's car and one driven by Susan Dalton of San Mateo, four miles east of Truckee Saturday evening. Fultz was accused of not stopping at the scene but was apprehended by Thomas Kirby of Hirschdale a short time later. He was cited by State Patrolman Carroll Maynard, who made the investigation.

While the officers were attempting to clear the highway where Miss Dalton's car was damaged, Carothers came upon the scene and, according to officers, failed to note the warning flares and crashed into the rear of the Dalton machine, shoving it forward 100 feet.

Patrolman Roy Stallard cited Carothers. No one was injured in the accidents.

Legal Papers Asked In Tahoe Property

Legal papers relating to the estate of Edna R. Vogel, Lake Tahoe property owner who died on April 30, were filed in the county clerk's office at Reno. Mrs. Vogel was a resident of Los Angeles.

According to a petition filed by R. Fred Vogel, son of Mrs. Vogel, the property at Crystal Bay Park is worth about $200 to $300. Mr. Vogel asked the court to appoint him executor in the estate.

DR. HALL SPEAKS AT JOINT MEETING

Last Monday evening the Truckee Rotary Club played host to the Truckee Lions Club, at a meeting at Donner Lake Lodge. The Rotary Club was fortunate to have as the principal speaker, Dr. W. W. Hall, a Reno Rotarian, who brought with him the coaches of the University of Nevada and Reno High School.

Dr. Hall is one of the most natural speakers and entertainers. He kept the rather large group in continual laughter with his very colorful stories.

On the serious side, the coaches of the University of Nevada, Hugh Smithwick and Jake Lawlor, gave their proposed lineup for the university football team and listed their scheduled games. The Reno High School coaches present were Buddy Farfinkle and Dick Trachok.

The Truckee Rotarians had as their guests, Bob Annis, president, and Tae William, secretary, of the Reno Rotary Club, Winslow Christian and Roy White, of Loyalton; Dick Miller, San Luis Obispo; Carl Noren, Nevada City; and T. L. Chamberlain, of Auburn.

The meeting was presided over by President Alvah Hooper and the club should give a vote of thanks to Program Chairman Johnny Ciardella for getting one of the most entertaining evenings.

The next meeting of the Truckee Rotary Club will be held on Sept. 13 at Donner Lake Lodge.

Mother Of Truckee Woman Is Deceased

Funeral services were held at Auburn for Mrs. Martha Susan Wilson of Newcastle on Wednesday, burial following in the Auburn District cemetery.

Mrs. Mary E. White of Truckee and Mrs. Louise Bennett of Auburn, daughters and Robert H. Quincy and Joseph H. of Alameda, sons, 15 grandchildren and 16 great grandchildren survive.

Mrs. Wilson was a native of Arkansas.

Visitor Expires

The body of Mrs. Maybelle E. Hanson, 74, who expired here following a stroke Thursday evening, was taken to San Francisco by the Truckee Colonial Mortuary for funeral services. Mrs. Hanson had been visiting with relatives at Donner Lake.

Mr. and Mrs. Robert Leamon observed their wedding anniversary and her birth date on August 28.

How Much Is A MIRACLE Worth?

We've almost forgotten the fearsome diseases of our childhood—diptheria, meningitis, scarlet fever, pneumonia and even smallpox. Today's "miracle drugs" have conquered these killers, and greatly reduced the time and cost of hospitalization and convalescence.

Within our lifetime, more than 20 years have been added to Man's life span. Children's diseases are a rarity. The number of older people has more than doubled. All this has been gained for you by Pharmacy's newer medicines, products of reasearch and servants of your doctor and mankind.

The cost of this wonderful medication is low. Facts show that drug costs have not increased appreciably in the past 45 years, despite the great increase in "cost of living" and luxuries. Truly, medication is today's "biggest bargain" in the home.

Affirmative Vote On Bonds Will Assure Continued Vet Loans

SACRAMENTO (CNS)—The California veterans farm and home building loan fund can stand the present seven million dollar a month pace of loans until December 1, State Director of Veterans Affairs J. Marvin Russell said today.

Russell said that if voters approve of Proposition 1, the $175,000,000 bond issue to replenish the fund, on the November ballot, veterans will be able to apply for building loans without interruption.

Russell said the present three per cent interest on the olans probably will be continued through next year.

Visiting Here—

Eugene Gini is enjoying a few days leave from his navy duties at San Diego and is visiting here with his parents and friends. He has two more months of duty in the service.

Parents See Judge—

Mr. and Mrs. Frank Wilson of Grass Valley visited Judge and Mrs. Fosten Wilson on Friday. The visitors are parents of Judge Wilson.

Belated News Of Death Of Mrs. Zydner Is Told

Peter Zydner, well known local resident, who spends his winters at Bakersfield, has arrived here for an indefinite stay and brings belated word of the death on March 15 of his wife, Mrs. Clara Hattie Zynder.

Mrs. Zynder expired in a Bakersfield .Hospital following a heart ailment from which she had suffered for some time. She was a native of Oakland but had lived at Bakersfield and in Truckee for the past 50 years.

Besides her husband, the deceased leaves a son, Paul of Bakersfield, a brother, George B. Robinson of Salinas and a sister, Mrs. Vera Bradford of Bakersfield.

Hurt In Fall

Joseph Trumel of Chico sustained bruises as well as a rib injury when he fell from a Southern Pacific railroad shed onto the rocks below near Donner Summit on August 27.

Trumel is reported as recovering at Tahoe Forest Hospital.

IT HAS BECOME EVIDENT THAT GEORGIE FEARONS TURNED TRAITOR AND AGREED TO SUBSTANTIATE BERNARD SHEA'S PLAN.

"I SUPPOSE I UNDER-ESTIMATED YOU, GEORGIE," MUSED BERNARD. "AS WITNESS TO STERLING'S DEATH YOU FOUND A CLEVER WAY TO SAVE YOUR NECK--"

"--AND SHARE THE FORTUNE," ADDED FEARONS BOLDLY. BERNARD CHUCKLED. "YOU APPEAL TO MY CONNIVING HEART. VERY WELL--I'LL GO ALONG WITH THAT."

...NIGHT PASSED, AND THE OCCUPANTS OF THE PRISON HUT GUESSED WHAT HAD HAPPENED. "LOOKS LIKE 'FRIEND' GEORGIE HAS FLED TO THE OTHER SIDE," SAID STERLING BITTERLY.

OMINOUS DRUMBEATS ANNOUNCED THE MORNING HOUR OF SACRIFICE. EAGER GUARDS IMMEDIATELY CAME FOR THE CAPTIVES--

BERNARD SHEA AND FEARONS HAD DIRECTED A TENSE THRONG TO THE CLIFF'S EDGE--FOR ALL KNEW THAT SOMEWHERE, IN THE GLOOMY WATERS BELOW, THE *MONSTER* WAITED!
